Official Patient Summary Report

Patient Name:	Apurv	Visit Date:	2026-02-21
Patient ID:	P-162	Doctor:	Dr. Smith
Date of Birth:	2001-01-01		

YOUR HEALTH SUMMARY (Simplified Explanation)

Dear Apurv,

SUMMARY OF YOUR VISIT

You visited us today at City Wellness Center on February 21, 2026. Dr. Smith attended to you and discussed your health concerns.

WHAT IS WRONG

You have been diagnosed with Hypertension (High BP), which means your blood pressure is higher than normal. This can cause problems if not managed properly. You mentioned having a mild headache, and your blood pressure reading was 145/90, which confirms that you have Stage 1 Hypertension. We will work together to manage this condition.

YOUR MEDICATIONS

You have been prescribed Amlodipine (5mg) to help control your blood pressure. You need to take one tablet every morning with water for the next 30 days. This medication will help relax your blood vessels and make it easier for your heart to pump blood.

WHAT YOU NEED TO DO

To manage your condition, we recommend that you follow a low-salt diet. This means reducing the amount of salt you use in your daily meals. You can also try to include more fruits, vegetables, and whole grains in your diet. Additionally, make sure to take your medication as directed.

WARNING SIGNS

If you experience any of the following symptoms, please seek immediate medical attention: Severe chest pain, Sudden weakness, or Dizziness.

City Wellness Center

Official Patient Summary Report

(\u0ba4\u0bb2\u0bc8\u0b9a\u0bc1\u0bb1\u0bcd\u0bb1\u0bb2\u0bcd). These could be signs of a more serious condition.

FOLLOW UP DETAILS

We would like to see you again on March 7, 2026, to check on your progress. If you have any questions or concerns before then, please don't hesitate to contact us at +1234567890 or email us at apurvsaktepar2806@gmail.com. You can also reach out to us through your phone number +917058229202.

We care about your health and are here to support you.

Best regards,
Dr. Smith
